

JONES

CMiC

Get Vendor COIs Compliant Faster and View Insurance Data in CMiC

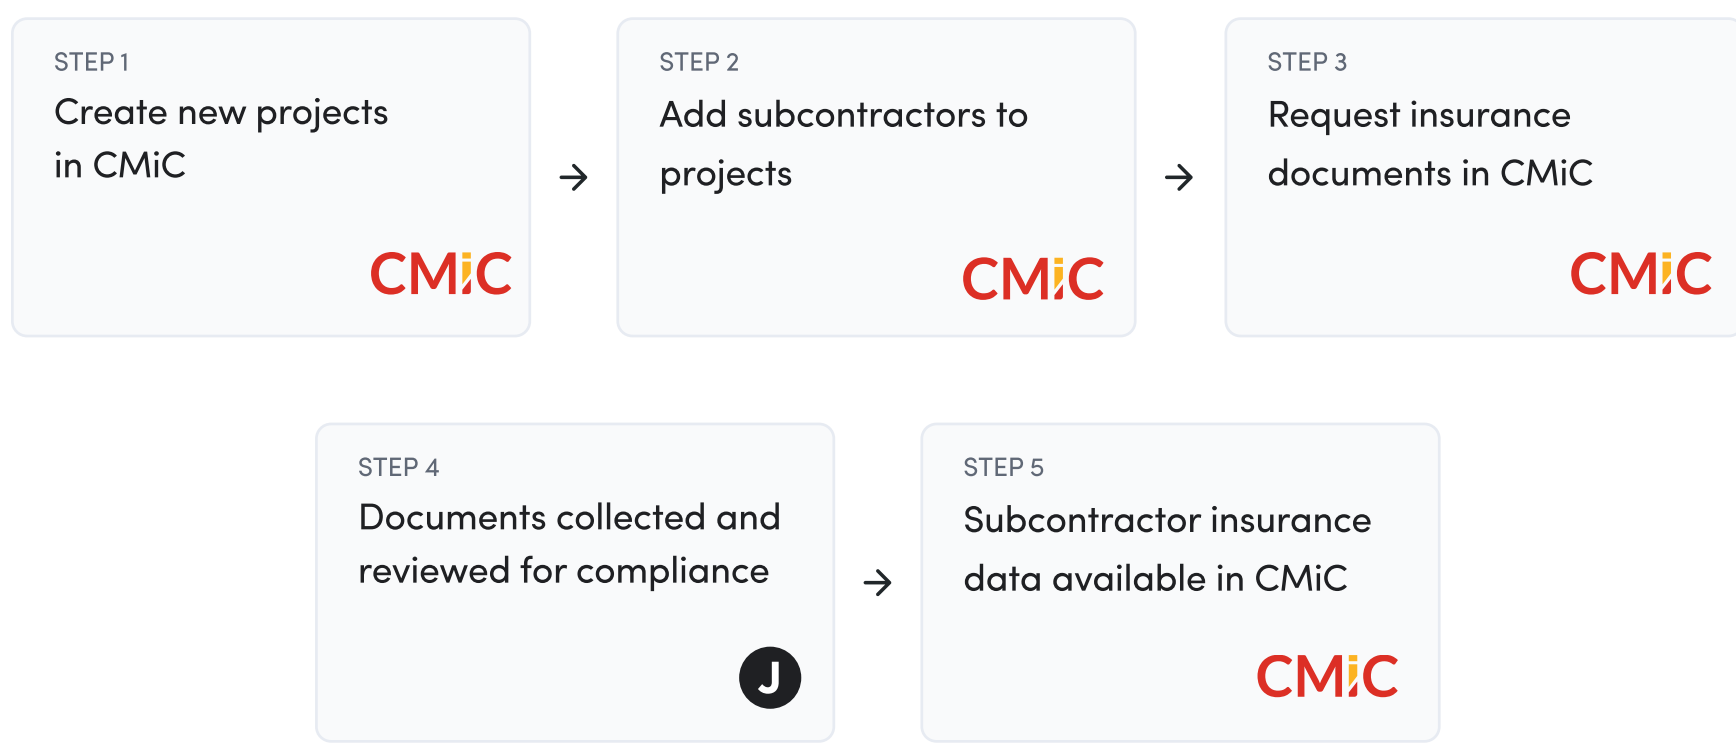

Request, collect, and have vendor insurance reviewed for compliance without having to leave CMiC

Why teams power up their CMiC accounts with Jones

- No need to switch between CMiC and other software or spreadsheets to request COIs and manually update compliance data
- Accurate review of insurance documents by COI review experts in under 24 business hours
- Simplified experience and timely payments for subcontractors and vendors

How Jones enriches CMiC with vendor compliance data

- Integration can be customized to display overall vendor compliance or compliance on a per-policy level
- Compliance data can be displayed in the ERP and Field tabs
 - ERP: Accounts Payable and Project Controls Modules
 - Field: Budget and Cost Management Module
- Subcontractor compliance can be tracked on a global or project level

JONES

Collect, verify, and approve subcontractor COIs faster and more accurately with Jones

CMiC

Auto-populate insurance data into CMiC so payment can be contingent upon compliance

How Jones helps manage vendor compliance

- Extract insurance requirements
- Monitor expirations/auto-renew
- Review for compliance (two-phase audit process, combining OCR technology and double verification by team of insurance professionals)
- Collect insurance documents
- Resolve gaps in coverage
- Schedule reports on compliance rates
