

JONES

CMiC

Get Vendor COIs Compliant Faster and View Insurance Data in CMiC

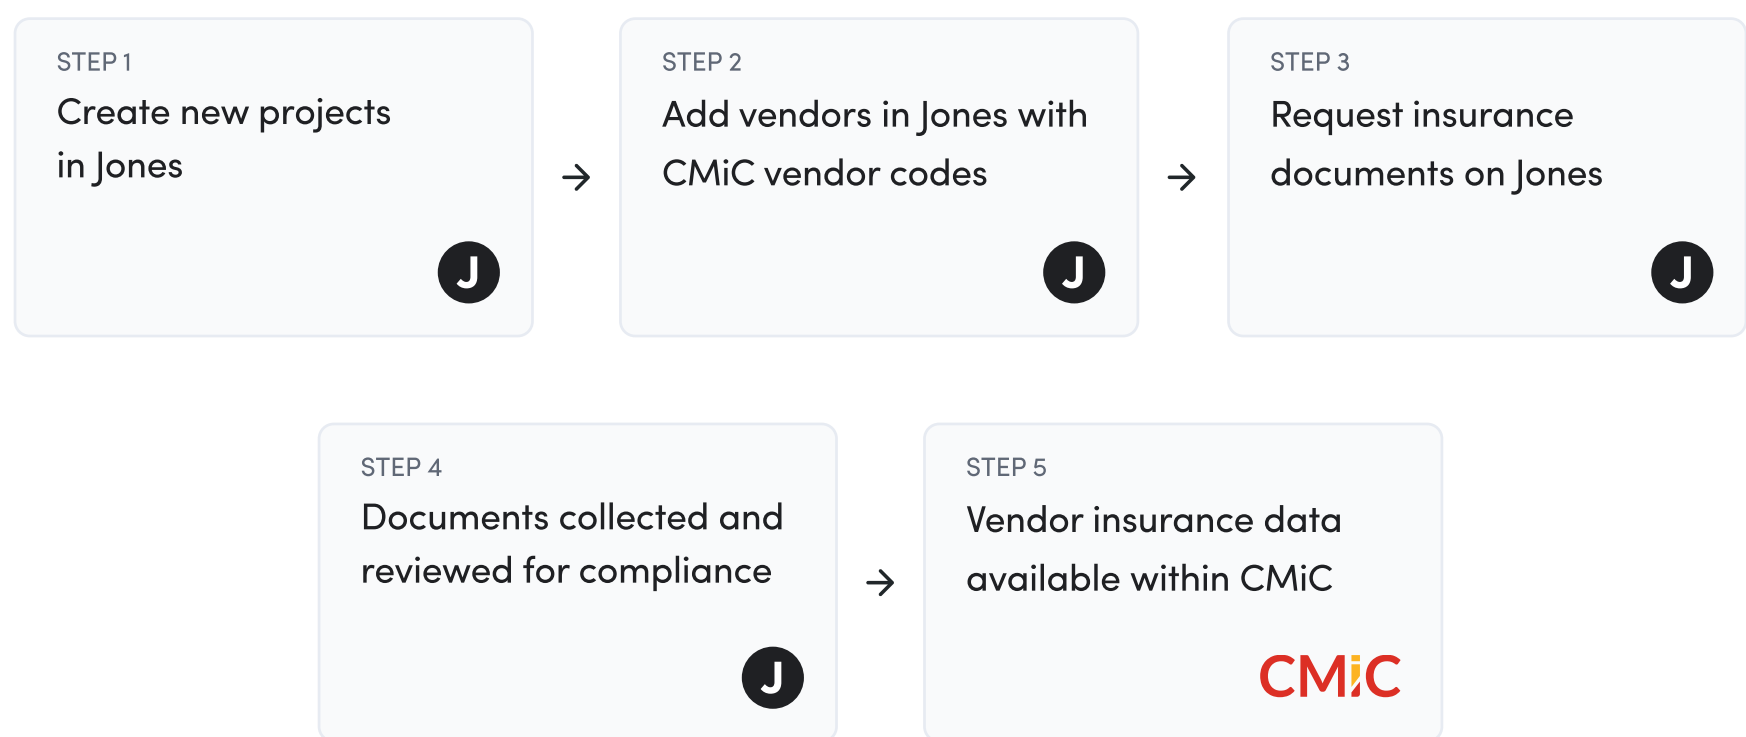

All the subcontractor insurance data your teams need, available in real-time within CMiC.

Why teams power up their CMiC accounts with Jones

- Reduce time spent switching between CMiC and other software or spreadsheets to manually update compliance data
- Accurate review of COIs and endorsements by insurance professionals in under 24 hours
- Simplified experience and timely payments for subcontractors and vendors

How Jones enriches CMiC with vendor compliance data

- Integration can be customized to display overall vendor compliance or compliance on a per-policy level
- Compliance data can be displayed in the ERP and Field tabs
 - ERP: Accounts Payable and Project Controls Modules
 - Field: Budget and Cost Management Module
- Subcontractor compliance can be tracked on a global or project level

JONES

Collect, verify, and approve subcontractor COIs faster and more accurately with Jones

CMiC

Auto-populate insurance data into CMiC so payment can be contingent upon compliance

How Jones helps manage vendor compliance

- Extract insurance requirements
- Monitor expirations/auto-renew
- Review for compliance (two-phase audit process, combining OCR technology and double verification by team of insurance professionals)
- Collect insurance documents
- Resolve gaps in coverage
- Schedule reports on compliance rates
